授業概要及び授業方法	Students will strengthen the basic capability and improve their ability to listen, read, speak and write English. It is inevitable for us to work without knowing, hearing or seeing English in this globalised society today. This course will strengthen students' skills and knowledge of English that they have already learned at schools in the past. Students will have more opportunities to communicate verbally, read and write on topics relevant to their daily life as college students. Also, they are encouraged to read and talk about Miyazaki and Japan to enrich their knowledge and prepare for their contribution to the community.
